Reasons for allowance

The following is an examiner's statement of reasons for allowance:

The prior art of record further failed to teach or disclose either singularly or in combination a method for a display source to provide information for display on a display device; wherein the method further comprises the steps of: "receiving notification of an estimated time when a future frame will be displayed on the display device, wherein the estimated time is estimated based upon a control signal received from the display device" (as per claims 1 and 9); further failed to disclose: "receiving notification of a time when a frame was displayed on the display device, the frame containing at least a portion of the released display information; comparing the received estimated time to the received display time; and if the received display time is later than the received estimated time, then taking corrective action" (as per claim 7); and further failed to disclose: "receiving occlusion information indicating that at least a portion of the display information will be occluded, wherein the occlusion information is based at least in part upon display information from a different display source, and at least a portion of the display information will not be occluded, then preparing only non-occluded portions of the display information, and not preparing occluded portions of the display information" (as per claims 10 and 14). The above limitations of the present claim invention have not found to be anticipated, suggested or made obvious by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
